

TOP 10 UNIVERSITIES

2021

Australia towers several universities that have been listed in 'Top hundred Universities in the World' consecutively for the past years. The superior quality of education, multicultural environment, and lectures from the best in the field - are key components that distinguish these universities from others.

Exponential growth has been witnessed in the rise of application from Asian students, owing to their world-class academics. The country has been ranked as the third most preferred destination for overseas education following the USA and the UK.

1 Australian National University

This world-leading centre for education and research was established in 1946 as the first university in the country. Marked by an exceptional record for student satisfaction and graduate employability, **ANU is ranked #1 in Australia and #31st in the world.**

The well-structured campus and facilities, owing to the university's commitment towards sustainability - are a treat to the nature-lovers out there. The campus is located in the suburban setting of the city of Canberra. ANU has a selective admission policy. Students are accepted based on their performance on the entrance examinations and past academic records.

2 University of Sydney

Located in the metropolis of Sydney, the quality of education is indisputable at the University of Sydney. Rated highly in almost a hundred academic fields, the campus has been **voted by multiple publications as the most beautiful in the world.**

Including six prime ministers, two Nobel Laureates, three astronauts, one Pulitzer Prize winner, and many others, USYD is marked by renowned alumni who

contribute to lead innovation in diverse areas. Every student is offered an opportunity to take part in a work placement program that engages them in major projects. USYD has partnered up with leading companies like Microsoft, Rio Tinto, GE Healthcare, Defense Science and Technology Organization, and Elastagen.

3 University of Melbourne

This university has been around for over 167 years and is located in the cultural capital of Australia. This leading research and innovation **centre has manifested itself as a top university in medicine, engineering, life sciences, and social sciences.**

The city is an ideal location for international students. It is food heaven, known as sporting capital and economic centre. Apart from academics, UNIMELB provides other facilities and services to students like sports facilities, financial aids, scholarships, exchange programs, and other administrative services.

4 University of New South Wales

The university is young in thought and spirit. It prides itself as a world leader in research and has made path-breaking changes in the field of HIV, solar power, and quantum computing.

They offer world-class training in medicine and produce undisputable lawyers. As per the list released by the Financial Times in 2014, **UNSW is one of the top providers of MBA.**

UNSW is the **closest university to the beach** in all of Sydney. The campus is a world of its own. It has everything, including accommodation, student food and drink deals, bars where you can grab a drink, and even have a supermarket on campus.

5 Monash University

Monash University is Australia's largest university in terms of the student population. **It is recognized for being a member of the M8 Coalition of Academic Health Centers, Universities, and National Academies.** It has been ranked as the best university in the nation for engineering and technology by TIMES and for chemistry by the Academic Ranking of World Universities in recent years. The university has campuses in Malaysia, South Africa, China, India, and Italy, in addition to Australia.

Our reputation has been built on career-focused degrees, outstanding educational quality, and impactful research. Flexible study options are the highlight of the university. These choices provide you with a diverse education that sets you apart from your peers.

6 University of Queensland

Another institution that regularly ranks high in world rankings is the University of Queensland, which is **known for its influential research initiatives in science, technology, and medicine**. Students and academic fellows will benefit from the University's cutting-edge services, which include teaching hospitals, agricultural science farms, and physics research stations.

Queensland is very cooperative and reasonable to a student on a tight budget. You can save every single penny and bring it to good use effectively. Queensland is just one of those places, with colleges that have top-notch training at affordable tuition and living costs.

7 University of Adelaide

The University of Adelaide, as a member of Academic Consortium 21, is **one of Australia's and the world's most research-intensive universities**. It emphasizes its expertise in engineering, environmental sciences, physics, chemistry, earth sciences, and computing sciences.

When compared to Perth and Brisbane, living in Adelaide would cost you 7% less. It is less pricey by 19% than Melbourne and Sydney. Adelaide's rental rates are around 44% lower (AUD 213) than the national average (AUD 385). Adelaide is on track to become a "Ten Gigabit City" in the near future.

8 University of Western Australia

Life and agricultural sciences, psychology, earth and marine sciences are among the areas that the University of Western Australia excels today. The University has three primary campuses where students and the public at large can access services such as theatres, libraries, labs, and a medical centre.

Professional placements, internships, mentoring, and marketable skills are offered at UWA to help you be graduate career-ready and with relevant learning experiences.

UWA is the only Western Australian university that is a part of an association of Australia's world-class research-intensive universities.

9 University of Technology Sydney

UTS offers technology-driven, purpose-built learning spaces as well as spaces for industry collaboration. **The courses offered are built to suit the demands of the industry with an aim to prepare one for a future career.**

The campus is located next to Sydney's CBD, walking distance from Central Station, and just a few minutes away from places to shop, snack, and socialize while you're not in class. Students have access to the library, athletic equipment, financial assistance, scholarships, exchange programs, and administrative services.

10 University of Wollongong

The University of Wollongong is situated on Australia's east coast, around an hour and a half south of Sydney, **and is ranked in the top 20 modern universities in the world***. UOW offers over 300 undergraduate and postgraduate degree programs.

Business; Engineering and Information Sciences; Law, Humanities and the Arts; Science, Medicine, and Health, and Social Sciences are the five faculties where UOW has established a strong repute for teaching and learning. This 45-year-old Australian university has a selective admissions process focused on students' prior academic records and grades. Students from all over the world are welcome to apply for admission.
